

# Well 6104/25-1

## Reports

1. Ichron. A Biostratigraphic Evaluation Of Well 6104/25-1 (Sula/Stelkur), Faroese Continental Shelf. February 2015.
2. WeatherfordLabs. Sidewall Cores Analysis. January 2015.
3. APT. Geochemistry Data Report – Geochemical Analysis of Sidewall Core and Gas Samples from Well 6104/25-1 (Sula Stelkur Prospect). February 2015.
4. FIT. A Stratigraphic Reconstruction of Bulk Volatile Chemistry from Fluid Inclusions in well 6104/25-1. January 2015.
5. Final Well Report - Well 6104-25-1. April 2015
6. Jolly. Biostratigraphic Report for Well 6104/25-1.
7. Bell. Lithostratigraphy of the interval 2470-3009m (MD). February 2015
8. Schlumberger - Geoservice. FLAIR End Of Well Report. August 2014.
9. Geoservice. Final Well Report. September 2014.
10. Faroes Exploration Licence 008: Remaining Hydrocarbon Potential.
11. Schlumberger. VSP. August 2012.
12. Survey Report – Geographic. October 2014
13. Remaining Hydrocarbon Potential. January 2015
